THE ALEXANDER BOND MYSTERY.

Professor Doremus' Analysis Completed - Tio Traces of Poison Discovered-A Servant Girl Talks - The Case Further Adjourned.

This extraordinary case was resumed yesterday afternoon before Coroner Fly An. It will be reembered that Captain Alexs ader, of New Orleans a man who was reputed to equite wealthy, died about a year ago in the house of Mr. and Mrs. Gardner, in 125th street, and that last January Mrs. Virginia C. Burke, a daughter of the deceased, made mosvit against them, charging them with having caused the death by poison of her father in order to get possession of a large amount of bonds, equivalent in value to about \$60,000, it was believed he had on

The proceedings yesterday were opened by Dr. Shine's reading the affidavits of the witnesses in the case where testimony had been taken in the absence of the jury. These have all been published in the HERALD.

Mr. and Mrs. Gardner were present, as was also the servant girl. Rose, who was charged by Mrs. Burke, with having been an accessory in the poisoning of her father. Mrs. Burke was also present. Both parties had their counsel with them.

After the reading of the amdavits Professor Dore us was called and sworn. While he was giving his evidence the utmost suence prevailed in the room, and when he closed by saying that he had been unable to find any trace of poison in the stomach of Captain Alexander Mrs. Cardner burst into tears. Mrs. Burke tooked deathly pale, but was otherwise, to all appearances, not in the least

The following is Mr. Doremus' testimony:-

Re ogden Doremus, being duly sworn, testifies and says that he resides at No. 70 Union place, and is styred to Chemistry and Toxicology in the field-wise Hospital Nesical College and Professor of Chemistry in the City College; that on Wednesday altermoon, January 29, 1870, he visited the Morke and Lean in the post nortem examination of the remains of Capiain Alexander (made by order of Coroner Flynn) by Dr. Sume, assisted by Drs. The servant girl Rose, after the adjournment, informed Dr. Sinne that last squamer Mr. Gardner gave ner his pocks book to keep or him, and she saw that it contained several government conus.

REAL ESTATS SALES.

Yesterday proved an unsatisfactory day in the real estate market, exhibiting the disposition there so strongly manifested in other quarters on the part of buyers, to need off until the culmination of the present gold movement. While it is siin held conadently that even a accline in gold to par does not imply a break in real estate, even those who subto that opinion are indisposed to risk their money upon it and are cantious about entering into engagements which max be postponed, it is only upon this a sumption that the failure in the sale of the leases assumption that the failure in the sale of the leases on the south sale of the new Thomas street, on the ate of the New Tork Hispital, on he accounted for, as with the splendid improvements recently made on this street these leases cannot be regarded as other than desirable. Some an parently forced sales were made jesterday at a considerable reduction, which is not surprising in the present temper of the market.

The Newfordland Fisheries.—The announcement made by the annuary on Thursday night that they would refuse because to Americans to dan on our shores in waters to which they have been accustomed seems likely, as Sy Alexander Galt Raid, to renew a very old, complement and vexed question, and it may test the exact heading of the imperial protection which is all to be pletged to us. We are therefore curious to see what is the precise character of the imperial sanction, it any, which has been given to this poncy.—Moneral Handle, Earch 5.

The moral city of New Haven is excited by the announcement of Chief of Police Bowen that since his election he has kept a "bine book," in which are the names of many prominent married scotlemen. The Chief thinks that if the hames and the charges were made public there would be a picity lively running ap of the divorce docker.

FINANCIAL AND COMMERCIAL.

TUESDAY, MARCH 8-6 P. M. If we may base an opinion upon the course of the gold market during the past lew weeks it is evident that artificial influences only can interrupt a steady decline to par. To-day
GOLD DECLINED TO 110%.

cold declined to 110%, therein keeping up about the average rate of decline which has for several days marked the downward course of the premium. To-day was about the first time any one was found who did not believe gold was cheap. It was this feeling that gold below 125 was a cheap investment that brought thousands of speculators into the market, all of whom hearded up in expectation of a rise. But the whom hoarded up in expectation of a rise. But the rise did not come. The market had no elasticity. It went down, but would not go up again. Hence those or three per cent, and the mass of gold, genuifie and ficultious, represented in the daily clearances at the Gold Bank has settled down through the hands of successive purchasers. But now gold is no onger cheap. Every argument on the "bull" side has proved a delusion. The public are all "bears." When gold "broke" 112 to-day the crowd in the gallery of the Gold Room cheered. They cheered me lustily when the dial indicated 110%. The market was leverish and excited throughout. The opening price, 112½, was barely a quotation. With the dulness and heaviness in the exchange market the "bulls" lost all heart and sold out. As the day were on word came from Washington that Senator Williams had introduced a joint resolution authorizing the receipt of greenbacks to the ex-tent of fitty per cent in future payments of custom duties, while another "red hot" Senator wanted to unload all the surplus government treasure on the market without delay. The resolution to receive one-haif greenbacks for customs was the more important in its influence on the market, as its adopion would remove one great cause for the premium on gold. The emptying of the Treasury would produce only a temporary depression. Under these circumstances, and with the impending gold sale to-morrow-whereat the bidders may be "plumped" with all the gold they bid for, or may get none at all—the market broke to 110%. Here, however, the inevitable inflation influence came in, the Banking Committee having introduced, or having given notice of their intention to introduce, a bill to mcrease the currency \$50,000,000. Gold reacted to 111%. But as it became evident from the character of the action of the Senate that no such bill would receive enactment in the upper House the price again yielded to 111, especially as it began to steal through some minds at this juncture that the republican Senate on the eve of the New Hampshire election was fostering the advance to specie payments, while the republican House was taking care of the Western grumbiers by proposing an inflation of fifty millions. The chief fluctuations

were as follows:-

ranging from 5 down to 2 per cent, and exceptionally at "flat" or free of interest. The operations of ne Gold Exchange Bank were as follows:-

as at the close the evening previous, New Jersey central being active and a fraction higher. The general list was dull and transactions confined to the brokers of the stock cliques, the outside speculative element being as yet too cautious to venture upon buying while gold is so unsettiled. The "buli" cliques are making a most desperate effort to keep prices from following the example of the precious metal, but the stock list escaped their grasp to-day upon the decline of gold to 110%, and for a time showed some "ragged" quotations. They were forced to step in once more and bid prices up; out the market continued heavy to the close, the demoralization of the decline in gold continuing to depress all transactions after the first board. In this drop Pacific Mail touched 35, Rock Island 119, Erie 24%, Lake Shore 86% and Northwest 72%. After the boards the market was extremely dull. In the closing sidewalk transactions business was utterly "flat," and it is doubtful whether as many as five hundred shares of stock changed hands. GOVERNMENTS WEAK-'67'S 108. The government market was excited and declined in sympathy with gold, and showed more weakness than was expected in the approach of gold to par. The sixes of '81 held their own at prices about one and a half per cent above that of gold, but the newer issues were fever sh despite the improved quotations at London. At the close the market was steadier, with the following quotations:-United States currency sixes, 110% a 110%; do. sixes, 1881, registered, 113% a 113%; do. do., coupon, 114 a 114%; do. five-twenties, registered, May and November, 109% a 109%; do. do., 1862, coupon do., 109% a 110; do, do., 1864, do, do., 109 a 10914; do, do., 1865, do. do., 109% a 109%; do. do., registered, January and July, 107% a 108; do. do., 1865, coupon, do., 107% a 107%; do. do., 1867, do. do., 103% a 108%; do. do., 1869, do. do., 108% a 108%; do. ten-forties, registered, 105% a 108; do. do., coupon, 106 a 106%.

SOUTHERN SECURITIES ACTIVE. There was quite an active market for the leading peculative favorites on the Southern list, the new Tennessees going up and down the scale between the limits of 47% and 49%, though for what reason was not apparent. The Virginia old bonds sold at 76, but declined later in the day upon heavy realizaions. The North Carolinas were firmer. A large business was done in the Louisianas at improved prices. Missouris were lower. The latest street prices of the Southern list were as follows:-Tennessee, ex coupon, 56 a 57; do., new, 471/2 a 473/2; do., five per cent, 42 a 44; Virginia, ex coupon, 74% a 75; do., new, 71 a 72; do., registered stock, 57¼ a 58¼; do., registered, 1866, 62 a 63; do., registered, 1867. 59 a 60; Georgia sixes, 82 a 83; do. sevens, 923 a 93; do. sevens, interest payable in Georgia, 87 a 91; North Carolina, ex coupon, 46 a 463; do., new, 24 a 25; do., small, special tax, 21% a 22, Missouri sixes, 92% a 93; do., Hannibat and St. Joseph, 92 a 93; Louisi-gna sixes, 75 a 75%; do. levee sixes, 74 a 74%; do. do, eights, 85 a 8534; Alabama eights, 95 do. fives, 65 a 67; do. do. sixes, sterling, 75 a 80; South Carolina sixes, 67 a 9); do., new (July), 80 a 8;

THE CUNARD BONDED WAREHOUSE IN JERSEY CITY. NEW YORK, March 7, 1870.

I have no inclination to enter into a newspaper controversy with the gentleman signing himself "Knickerbocker" in your edition of this morning, but if he wishes to hear both sides of the story con-Collector of the Port, by which all unclaimed goods arriving by steamer: at Jersey City and Hoboken have to be carted across the river to general order stores in New York, I shall be very happy to give it to him personally or by letter, provided ne will give me his authority for stating that the Cunard Company "have uiterly ignored their original agreement made when they were humble applicants for the privilege of bonding 'heir store-viz., that they would pay the extra cartage and ferringe from Jersey City to the public store"—or take the consequences of making such a charge against a company who are not in the habit of breaking their agreements.
